DETAILED ACTION

Response to Amendment

 Applicant's amendment filed on 6/19/09 has been entered and made of record.

Claims 12-13 are canceled.

Claims 1-11, are pending in the application.

Response to Argument

2. Applicant's arguments see page 7, of the remarks, filed 6/19/09, with respect to claims 1-13 have been fully considered and are persuasive. The rejection of claims 1-13 has been withdrawn.

Applicant's arguments see page 7, of the remarks, filed 6/19/09, with respect to the rejection of claims 1-13, under 102 (e) rejections have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of August (US. 6, 503,188 B1).

Information Disclosure Statement

3. The information disclosure statement (IDS) submitted on 5/11/09, the information disclosure statement is being considered by the examiner.

Application/Control Number: 10/580,496 Page 3

Art Unit: 2624

Specification

4. The following guidelines illustrate the preferred layout for the specification of a utility application. These guidelines are suggested for the applicant's use.

Arrangement of the Specification

As provided in 37 CFR 1.77(b), the specification of a utility application should include the following sections in order. Each of the lettered items should appear in upper case, without underlining or bold type, as a section heading. If no text follows the section heading, the phrase "Not Applicable" should follow the section heading:

- (a) TITLE OF THE INVENTION.
- (b) CROSS-REFERENCE TO RELATED APPLICATIONS.
- (c) STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR DEVELOPMENT.
- (d) THE NAMES OF THE PARTIES TO A JOINT RESEARCH AGREEMENT.
- (e) INCORPORATION-BY-REFERENCE OF MATERIAL SUBMITTED ON A COMPACT DISC.
- (f) BACKGROUND OF THE INVENTION.
 - (1) Field of the Invention.
 - (2) Description of Related Art including information disclosed under 37 CFR 1.97 and 1.98.
- (g) BRIEF SUMMARY OF THE INVENTION.
- (h) BRIEF DESCRIPTION OF THE SEVERAL VIEWS OF THE DRAWING(S).
- (i) DETAILED DESCRIPTION OF THE INVENTION.
- (j) CLAIM OR CLAIMS (commencing on a separate sheet).
- (k) ABSTRACT OF THE DISCLOSURE (commencing on a separate sheet).
- (I) SEQUENCE LISTING (See MPEP § 2424 and 37 CFR 1.821-1.825. A "Sequence Listing" is required on paper if the application discloses a nucleotide or amino acid sequence as defined in 37 CFR 1.821(a) and if the required "Sequence Listing" is not submitted as an electronic document on compact disc).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35
 U.S.C. 102 that form the basis for the rejections under this section made in this
 Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1- 3, 5- 9, 11 are rejected under 35 U.S.C. 102(e) as being anticipated by August (US. 6,503,188 B1).

As to claim 1, August discloses A system for providing a personalized experience to a person in a medical environment (note, providing a personalized experience to a person in a medical environment corresponds to patient in a healthcare, hospital or convalescent setting), comprising:

means for selecting by the person preferred data from a collection of data (note, providing a personalized experience to a person in a medical environment corresponds to patient in a healthcare, hospital or convalescent setting, by providing the person with a choice of selecting for viewing one or more spatially open, serene natural pictorial landscape scenes to which the person is believed to have an innate positive biophilic affinity, connected with (column 10, lines 53-64, column 11, lines 4 – 16, 25- 31, 61- 64),

means for controlling display means for displaying the selected data in the medical environment (column 11, lines 4-6, 32-35, column 12, lines 52-60).

As to claim 2, August discloses a system as claimed in claim 1, wherein the data comprise visual data (note, visual data corresponds to biophilic picture, fig 3, element 405).

As to claim 3, August discloses a system as claimed in claim 2, wherein the visual data comprise still images (fig 3, element 405 biophilic picture are still images).

As to claim 5, August discloses a system as claimed in claim 1 wherein the display means comprise at least one projector for projecting the visual data on surfaces of the environment (column 12, lines 21- 26, element 409 corresponds to projector).

As to claim 6, August discloses a system as claimed in claim 1, wherein the data comprise audio data (fig 7, element 720).

As to claim 7, August discloses a system as claimed in claim 1, wherein the selection means comprise at least one identifier element comprising predetermined data, and the control means comprise reading means for reading the data comprised in the identifier (note, identifier corresponds to a plurality of images (such as pictorial display consist of savanna- type landscape of open spaces, interspersed with distinct spread apart element such as trees or bodies of water to create relaxation and to reduce stress of the person, see column 12, lines 12 – 17, 52-61).

Art Unit: 2624

As to claim 8, August discloses system as claimed in claim I, wherein the identifier element comprises an identifier chosen from a group of radio frequency transponders (note, radio frequency transponders corresponds to visual and audio data (column 11, lines 26-27, column 12, lines 52-61) and barcodes, and the reading means comprise a reader chosen from a group of radio frequency readers and barcode readers (note, identifier or barcode corresponds to a plurality of images (such as pictorial display consist of savanna- type landscape of open spaces, interspersed with distinct spread apart element such as trees or bodies of water to create relaxation and to reduce stress of the person, see column 12, lines 12 – 17, 52-61).

As to claim 9, August discloses system as claimed in claim 1, wherein personal data of the person can be included in the collection of data (column 2, lines 56-63).

As to claim 11, August discloses system as claimed in claim 1, wherein the environment comprises one of a group of hospital rooms, including medical treatment rooms, medical examination rooms, waiting rooms, and patient recovery rooms (column 14, lines 48-52).

Claim Rejections - 35 USC § 103

- 6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which

Application/Control Number: 10/580,496

Art Unit: 2624

said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary.

Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(f) or (g) prior art under 35 U.S.C. 103(a).

Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over August (US. 6,503, 188 B1), as applied to claims 1- 3, 5 – 9 and 11 above and further in view of August (US. 6,641,522 B2).

Regarding claim 10, August 188, discloses roll able health care displays

August 188 is silent about personal data can be sent via a public switching

network to be included in the collection of data.

August 522 discloses a methods and devices for promoting personal stress reduction and relaxation more, particularly, the present invention concerns methods and apparatuses used to expose persons to appropriately selected visual stimuli which promote relaxation in intimate settings, such as in hospital environments, office cubicles, health care institutions, educational institutions, and hospitality accommodations, or other like settings. The system

Art Unit: 2624

comprises of : wherein the personal data can be sent via a public switching network to be included in the collection of data (column 14, lines 31-39, column 15, lines 1-3, column 19, lines 27-38, 46-49).

Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention to have modified. August 188 to include personal data can be sent via a public switching network to be included in the collection of data. It would have been obvious to one of ordinary skill in the art at the time of the invention to have modified August (188) by the teaching of August (522) in order to provide a method for visually and biophilically expending recovery of a medical and /or surgical patient (as suggested by August at column 6, lines 23- 25).
